

group 1

12:00-12:30

»Together as one: Insights from clonal ants«

Zimai Li (he/him)
Max Planck Institute for Chemical Ecology

»Where do monkeys live? - The transformation of memories across decades«

Deetje Iggena (she/her)
Charité – Universitätsmedizin Berlin

group 2

12:30-13:00

»The future of farming is clean«

Artem Filipenko (he/him)
Leibniz Institute für Gemüse- und Zierpflanzenbau (IGZ) e.V.

»Queer and religious? Performing conflicting identities through language«

Miriam Neuhausen (she/her)
University of Heidelberg

group 3

13:00-13:30

»How to build a brain?«

Mateusz Ambrozkiewicz (he/him)
Charité – Universitätsmedizin Berlin

»An image is worth a thousand words?«

Yutong Zhou (she/her)
Leibniz Centre for Agricultural Landscape Research (ZALF)

group 4

13:30-14:00

Speakers corner
The public has time to ask more questions to the scientists

soapbox science and LGBTQ+ STEM

about soapbox science

Soapbox Science was founded in 2011 in London by scientists Nathalie Pettorelli and Seirian Sumner, inspired by Speakers' Corner in London's Hyde Park. There, during Victorian times, men and women spoke up about civil rights, often by standing on a wooden crate originally used for the shipment of soap. Speakers' Corner was thus born out of a struggle for civil liberties and was a significant milestone in the development of British democratic institutions.

Soapbox Science founders

Soapbox Science Berlin team

Soapbox Science mimics that tradition by inviting female* scientists to stand on a soapbox and present their work to the public. Speakers don't talk about being women* in STEM, they talk about their research; but by being visible, accessible and engaging, they have the opportunity to become role models.

The event is free of charge and is held in open public spaces all over the world.

*including cis or trans women, queer and non-binary persons and underrepresented groups including, but not limited to, black, indigenous and people of colour and people with disabilities

Do you love this idea and want to see it in your hometown? Get in touch and we will tell you how! You will receive a lot of guidance and meet fantastic people along the way.

about LGBTQ+ STEM Berlin

LGBTQ+ STEM Berlin aims to connect and improve visibility of lesbian, gay, bisexual, trans and queer (LGBTQ)+ people in the STEM field. LGBTQ+ STEM Berlin was founded in 2019 after a get together to celebrate the LGBTQ+ STEM day. We organise get togethers to connect LGBTQ+ STEM people in Berlin but we also aim to increase visibility by organising events such as this. If you are interested in joining us, talk to us or reach out via our website or social media.
