

group 1

17:00-17:30

»Using coral samples to recreate 6000 years of climate history«

Eleanor Percy-Rouhaud (she/her)
University of Leipzig
Max Planck Institute of Geochemistry

»Cabbage: The taste of diversity!«

Vanda Púčiková (she/her)
Leibniz-Institut für Gemüse- und Zierpflanzenbau (IGZ) e.V.

group 2

17:30-18:00

»Your brain is a natural statistician/Your brain listens even when you don't«

Livia de Hoz (she/her)
Charité – Universitätsmedizin Berlin

»Mitochondria in health and disease: Our metabolic common ground«

Marie-Thérèse Henke (she/her)
Charité – Universitätsmedizin Berlin

group 3

18:00-18:30

»Unlearning design of a public space«

Sveta Gorlatova (they/them)
Feminist Park of Berlin

»How do plants sense temperature?«

Camilla Valeria Hörsch (she/her)
Leibniz Institute for Vegetable and Ornamental Crops Großbeeren

group 4

18:30-19:00

Speakers corner

The public has time to ask more questions to the scientists

soapbox science and LGBTQ+ STEM

about soapbox science

Soapbox Science was founded in 2011 in London by scientists Nathalie Pettorelli and Seirian Sumner, inspired by Speakers' Corner in London's Hyde Park. There, during Victorian times, men and women spoke up about civil rights, often by standing on a wooden crate originally used for the shipment of soap. Speakers' Corner was thus born out of a struggle for civil liberties and was a significant milestone in the development of British democratic institutions.

Soapbox Science founders

Soapbox Science Berlin team

Soapbox Science mimics that tradition by inviting female* scientists to stand on a soapbox and present their work to the public. Speakers don't talk about being women* in STEM, they talk about their research; but by being visible, accessible and engaging, they have the opportunity to become role models.

The event is free of charge and is held in open public spaces all over the world.

*including cis or trans women, queer and non-binary persons and underrepresented groups including, but not limited to, black, indigenous and people of colour and people with disabilities

Do you love this idea and want to see it in your hometown? Get in touch and we will tell you how! You will receive a lot of guidance and meet fantastic people along the way.

about LGBTQ+ STEM Berlin

LGBTQ+ STEM Berlin aims to connect and improve visibility of lesbian, gay, bisexual, trans and queer (LGBTQ)+ people in the STEM field. LGBTQ+ STEM Berlin was founded in 2019 after a get together to celebrate the LGBTQ+ STEM day. We organise get together to connect LGBTQ+ STEM people in Berlin but we also aim to increase visibility by organising events such as this. If you are interested in joining us, talk to us or reach out via our website or social media.
